# WELCOME FROM VALI HI

Vali Hi Shorthorns had their beginning in 1948 with the gift of a heifer calf to Mrs. Miller from her father, Louis Thiede. To this calf and her descendents were added a pair of heifers in 1953 and another group in 1955. From these cattle grew the present herd at Vali Hi. Through the foresight of her father and the continued breeding program of Vali Hi we believe that we have a cow herd with emphasis on size, correctness, muscling and mothering ability that meets the needs of the cowman. Vali Hi moved its cattle from the sandhills of Nebraska to Brook Park, Minnesota, in 1966.

Cattle from Vali Hi have been exhibited at the Chicago International, the National Western, Denver (where we had the reserve carload in 1970, the grand champion carload in 1973, and third in pen of three in 1969 and 1973), the Red River Winter Show, Crookston, Minnesota (where we had the grand champion steer in 1968), at the Minnesota State Fair and at County Fairs where they have earned high ratings in various years. In August, 1973, we had the grand champion female and the reserve grand champion bull at the East Central Minnesota Shorthorn Show.

One of the strongest bulls used at Vali Hi was Meadowview Kilty 4th that weighed 1,620 pounds at 19 months and whose blood has been used extensively in the Vali Hi breeding program.

Latest bulls added to this breeding program are from Pleasant Dawn Farms, the herd of Lloyd and Tully Hatch, Oak Lake, Manitoba, Canada. These bulls are Pleasant Dawn Approval 51C x and Pleasant Dawn Encore x, both of which are Polled Shorthorn bulls.

We strongly urge everyone interested in good quality cattle to attend the sale. If you miss it, you are liable to miss out on some of the best cattle that will be offered at auction this year.

We feel these cattle speak for themselves and look forward to renewing old acquaintances and making new friends at sale time.

Willis & Ellen Miller  
Vali Hi

# History Of The SUNRISE VALLEYVIEW HERD, Lindstrom, Minnesota

The Sunrise Valleyview Farm herd was started in 1968 with the purchase of Circle L Augusta Kay from Dewey Lunstra in his dispersion sale. Following this, a larger purchase was made from Charles Augustine of Lake City, Minnesota, where the bulk of the foundation herd was bred. Most of the original breeding goes back to Bapton and Sunrise Valleyview has continued to linebreed. Additional purchases were made at the Echo dispersion and the Fernwood dispersion and purchases were also made from Willis Miller's Vali Hi herd, Brook Park, Minnesota.

In February of 1970 Rothbury Dynamic Leader 27th x was purchased at the Canadian International Bull Sale to introduce a new bloodline into the herd. In the meantime, the herd has been culled very severely. The remaining cows have been easy calving cows that have a history of calving yearly with no problems. Any cows that were smaller have been deleted from the herd. Rothbury Dynamic Leader 27th x has been used for the last three years, producing successive calves which have been very satisfactory and, in fact, outstanding. His breeding is evident in the cattle being sold at this time. The product will speak for itself.

I am dispersing my herd only because of health reasons and the pressure of other business. Shorthorns are great!

Dr. G. W. Hovde

**ROTHBURY DYNAMIC LEADER 27th x**

Reference Sire. He is the sire of all calves sold with the Lots 36 through 52. Purchased at the 1970 Canadian International Bull Sale where he was reserve junior champion bull.

# Complete Dispersion of CROSSPATCH FARM HERD Brook Park, Minnesota

The herd was started about 15 years ago by my father, Harry Cross, with females he purchased from Gordon Mork of Mora, Minnesota, and S. L. Lestamper of Aitken, Minnesota. He developed them until he became too elderly to care for them, and I took over in 1968.

I have tried to change them to the more modern, taller and more muscular type. In 1970, I purchased J M Fortress from J. B. Miranowski of Fulda, Minnesota, at the Minnesota State Fair at \$1,280. This bull has improved the herd type greatly. In the fall of 1972 I purchased Freyburn Jeffery 7B x from Harold Frey of Oxbow, Saskatchewan, Canada. He is a good Polled Shorthorn bull carrying both Boa Kae and Louada breeding. We have a few calves by him and they show great promise.

This summer my health has been such that I can no longer take care of the cattle and it is with great reluctance that I am offering the entire herd for sale.

Wm. D. Cross
